

# CRISTAL 2

## 1- Cristal 2 Multiplex Single Aisle System 8.2 Mhz.

\* including 1 receiver antenna + 1 transmitter antenna and 1 power supply.

New line of Multiplex products for enhanced performance.

The multiple field technology provides significant improvements in radio frequency interference (RFI) and better capability to adapt to a variety of environments.

## 2-Cristal 2 Mono Systems 8.2 Mhz.

\* Including 1 transceiver antenna and 1 power supply.

The mono antenna system is an ideal solution to protect wide aisles by limiting the number of systems installed.

This type of anti shoplifting systems can be an effective and esthetical security protection of wide exits boutiques.

Highly accurate and easy to install this Mono System provides an efficient detection with both hard tags and EAS paper labels.

Easy to install with its Auto-Adjusting Digital Processor, this Mono System does not require maintenance service.

Dimensions:

H: 1630 W: 375 mm

Composition:

Thick crystal clear acrylic and plastic box (white or gray), mounted on a technical control unit
